Dana and Paul,

Below is a constituent letter regarding Oil Sands Mining. Could the two of you draft a response for John and send it back to me for routing before 9/28? Thank you!

Julie Ann

FYI - attached is the Governor's guide to writing constituent responses, just in case you'd like a template to follow.

SUBJECT:
Governor Herbert,

I am gravely concerned that mining for oil sands has been approved in the State of Utah.

Oil sands are not an efficient means of obtaining energy - it takes more than two tons of sand to create one barrel of oil. Water, which is a finite resource, especially in the desert, must be used in large quantities to process oil sands into crude oil.

Governor Herbert, Utah needs to be a progressive state. I want to live in a state that is leading the country into the future. Oil sand mining will leave us in the past.

I want to know why you are justified in allowing a Canadian company to mine oil sands in the great State of Utah.

Thank you for your time.
